DETAILED ACTION

1. This Office Action is responsive to the Response filed on 08/28/06.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Jon Christensen on 06/01/06.

The application has been amended as follows:

IN THE CLAIMS:

Claims 13-35 and 40-53 have been canceled.

REASONS FOR ALLOWANCE

3. Claims 54-62 are allowed.
4. The following is an examiner's statement of reasons for allowance:
 - Regarding to independent claim 54, none of prior art of record teaches or suggests a high speed communication transmitter as claimed. Yip et al in view of Gambuzza and Allen, (all previously cited), fails at least to teach the resistor coupled to the transmission line, the resistor having a high impedance with respect to the normal impedance of the transmission line. In comparison, the claimed resistor is deemed not obvious over the switch device (20) (see Zip et al, figure 1) or any implementation on the switch device because the switch device should be

combined with the TRANSMIT PATH (see Zip et al, figure 1) in disclosing the claimed limitation “a line driver selectively coupled to the transmission line, the line having an impedance substantially equal to the normal impedance of the transmission line”, and therefore the switch device or any implementation on the switch device could not be considered equivalent with the claimed resistor. Further, it would not have been obvious for one skilled in the art to combine Yip et al in view of Gambuzza and Allen with other prior art of record for leading to the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
